### **Park and ride expansion nearly complete in Boyd County** *At KY 3, US 23*

FLEMINGSBURG, Ky. – A \$200,000 expansion of the Kentucky Transportation Cabinet's Boyd County Park and Ride facility at the US 23 and KY 3 intersection is nearly complete.

Contractors paved a new parking lot adjacent to KY 3 earlier this week, and plan to paint parking spaces today. By early next week, the striping and guardrail installation should be complete, and the new lot will open.

Once open, the Boyd County Park and Ride will provide an estimated 30 to 40 spaces in addition to existing angled parking that will remain along KY 3's west side. The parallel parking area along the eastern shoulder of KY 3 will be closed. Parking in that area, which is not an official part of the park and ride, can create traffic hazards for oncoming motorists. Motorists parking along the shoulder should plan to move to available angled parking spaces or the parking lot.

Park and rides, often called incentive parking and used by carpool or mass transit users, are provided as a public service by the Kentucky Transportation Cabinet and similar agencies across the country to reduce highway congestion and promote efficient travel.
